Boeing Supports SDSU College of Engineering Troops to Engineers Program

On behalf of Boeing, Commander Ward Wilson and Mr. Kevin Ober attended the SDSU College of Engineering Senior Reception on Friday, May 11th, 2018. They presented the Troops to Engineers (T2E) Program Coordinators, Marquita Small and Brittany Field, with a Boeing check in the generous amount of \$70,000 in support of student veteran engineers to gain paid internships and jobs for the 2017-2018 academic year.

With this grant the Troops to Engineers Program was able to help place 10 student veteran engineers into full-time jobs before they graduated. The SDSU College of Engineering and the Troops to Engineers Program appreciates Boeing's continued support of the T2E Program.

Congratulations to the 2018 Troops to Engineers student graduates (from top left to bottom right) Jeff Hopkins, Daniel Cerda, Deverson Lochard, Mike Troester, Kevyn Cabling, Walter Schneider, Jon Reiland (not pictured) and Miguel Castro (not pictured).
