San Diego State University Troops to Engineers Program (T2E) Second Annual Senior Awards Spring 2020

Congratulations to our Troops to Engineers recipients of the BAE Systems Senior Award! These four students have shown great dedication to the Troops to Engineers Program and were chosen based on their active participation in the Troops to Engineers Program

Sheena enlisted in the Navy and served eight years as a Hospital Corpsman. She graduated with a B.S. in Civil Engineering. She is currently working as a student assistant for CalTrans and is open to full-time opportunities. "Since joining T2E, I have received genuine support from them and all the resources to allow me to be successful in school, personal, and future career. I hope my fellow veterans pursuing a major in the engineering field will take advantage of being a part of Troops to Engineers!" ~ Sheena Sinigayan

Michael served four years with two PMOS's in the Marines. Michael excelled as a Generator Technician, Fuel, and Electrical Systems Technician. His primary work involved 3rd Echelon Maintenance, which is troubleshooting and rebuilding on electrical systems, primarily generators. Michael graduated with a B.S. in Electrical Engineering and is currently open to full-time opportunities. "Many opportunities that I would otherwise be unaware of, were made available through the program. T2E has helped me network and better prepare myself for the professional side of the engineering field." ~ Michael Newcomer

Donny served six years as an Electronics Technician in the Navy. Donny graduated with a B.S. in Electrical Engineering and is currently open to full-time opportunities. "The program is run by great people and the companies they exposed us to were helpful with getting us exposed to the industry." ~ Donny Lazatin

Jericho served five years in the Navy as a PO2 Aviation Electronics Technician. Jericho graduated with a B.S. in Electrical Engineering. In September, Jericho will be starting his new position at Northrop Grumman as an Associate Electrical Engineer. "The knowledge I gained from the workshops allowed me to get a head-start in my career by learning about the job market and the process of finding a job. In fact, a company tour allowed me to learn about the company, network, and gain an engineering internship." ~ Jericho Uy

Thank you, BAE Systems!
