Lorelay Mendoza, organized a Women in Leadership Panel

Experience

Women in Leadership Panel Shares Advice,

College.  Our new engineering student enrollment continued to grow in Fall 2018 with a record high of 797.

As we look back on our Fall 2018 semester, we have much to be proud of including the high impact of the SDSU College of Engineering on the local, national and global communities. Some highlights:

We welcomed eight new faculty members in our Departments: one in Aerospace Engineering, three in Civil, Construction and Environmental Engineering, two in Electrical and Computer Engineering, and two in Mechanical Engineering.

The College established a new Center for Student Success in Engineering, which included positions for a Faculty Advisor, Center Coordinator and Internship Coordinator.

We welcomed eight new faculty members in Aerospace Engineering, Civil, Construction and Environmental Engineering, Electrical and Computer Engineering, and Mechanical Engineering.

Moreover, our faculty’s total amount of research awards increased by 6% compared to the previous year and our doctoral programs student enrollment is at its historical high.
